

## My toy blocks

«He got it: The round blocks fit into the round hole.  
And a triangular opening needs ... a triangle!  
In the play it is obvious. In my dental care too!»

Christina,  
(Mother)

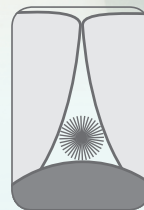

## *paro*<sup>®</sup> 3star – interdental brushes

The new generation of interdental brushes. The triangularly shaped *paro*<sup>®</sup> 3star. This interdental brush is designed to follow the natural form of the interdental space.

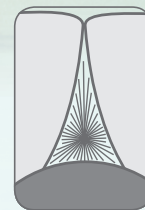

*paro*<sup>®</sup> 3star-interdental brushes have a higher cleaning efficacy compared to round interdental brushes.

Additionally triangularly shaped interdental brushes penetrate the interdental space more easily.

*paro*<sup>®</sup> 3star-interdental brushes are available in a comfortable grip edition.
